Product Use

Hygiene Kit for Leightning L3s/L3H/L3N/L3HV and Viking V3 Earmuffs

Features & Benefits

Feature

Extends performance and lifetime of earmuff Recommended replacement every 6 months with general use Snap-in ear cushions for quick and easy replacement

Benefit

Includes one pair of snap-in ear cushions and one pair of foam earcup inserts for Leightning L3s/L3H/L3N/L3HV only.

Technical Description

Earmuff Construction

None

Other Material

PVC foil, PUR-E

Dielectric

Yes

Color

Black

Batteries Needed

None

Sound Amplification

No

AM/FM Radio

No

Automatic Shut-Off Function

No

Audio Input Jack

No

Hi-Visibility

No

Maintenance

Life Cycle

Cushions should be replaced periodically to retain maximum attenuation. Use the following as a guideline for replacement of ear cushions and insert foam. General use and wear - Ear cushions and foam inserts should be replaced at least every 6 months. Heavy use or wear in humid/extreme climates - Ear cushions and foam inserts should be replaced at least every 3 months. Cracking or leakage is visible - replace ear cushions and foam inserts immediately.

Storage Information

When not in use, the earmuffs should be stored in a clean dry container or locker. Do not use solvents or petroleum-based products. Do not immerse the earmuffs in water.

Care Instructions

Earmuffs are an important safety product and should be inspected regularly. Its use, care and maintenance are critical to its effective performance. Earmuffs and in particular ear cushions may deteriorate with use and should be examined at frequent intervals for cracking and leakage. If the ear cushions become hard, damaged or deteriorated, they should be replaced promptly using recommended Hygiene Kits. Earmuffs should be maintained by regular cleaning. Use a mild disinfectant solution. A gentle wipe is all that is required.
