

PRODUCT NUMBER: 733

Camatril 733

Camatril® 733 is a proven, top-quality protective glove made of high-quality nitrile, for a wide range of applications. The large spectrum of chemical resistance makes this a versatile glove suitable for numerous fields. Good flexibility, anatomical design and excellent fit ensure a good sensitivity. With its 600 mm length it offers chemical protection beyond the forearm.

Overview

Reference Number

733

Product Type

Gloves

Range

Chemical Protection

Line

Heavy chemical

Brand

KCL by Honeywell

Brand formerly known as

KCL

Industry

- Agriculture
- Automotive and Part Manufacturer
- Chemical Industries
- Industrial Cleaning
- Laboratory
- Maintenance
- Petro-chemical

Product Use

- agriculture and horticulture
- laboratory work
- automotive and supply industry
- petrochemical and printing industry
- paint shops
- chemical industry
- maintenance and cleaning
- handling of epoxy resins

Features & Benefits

Feature

AQL < 0.65 glove surface free from silicone (lacquer indifference, test method automotive industry) good antistatic and electrostatic properties

Benefit

good grip when handling wet parts excellent sensitivity good resistance against a variety of hazardous substance groups good temperature flexibility high mechanical resistance

Technical Description

Description

Unsupported green nitrile. Roughened palm. Long cuff.

Product Technology

Dipped

Glove/liner color

Green

Coating Type

Nitrile

Length

575-625

Thickness

0,5

Harmlessness

In conformity with European standards

Sizes

8,9,10,11

EN 388 - Mechanical Hazards Abrasion Resistance

Abrasion resistance	3
Cutting resistance (Coupe test)	1
Tear resistance	0
Puncture resistance	2
Cutting resistance (TDM test)	X
