## Description

- Hydrophobic material repels water while absorbing only oil-based liquids; can also be used in pour-through filter applications to reduce hydrocarbon content
- Just sprinkle it on a spill, and then sweep it up; even removes the oily sheen from your floor
- Super absorbent; absorbs up to 6 times its weight of oil per bag
- Silica-free composition does not pose the health hazards associated with breathing in clay dust
- Non-abrasive composition will not harm floors or expensive machinery
